10. Verification of Distribution – Mail and Carrier Delivery Distribution

Engle Publishing & Printing Company, Inc. reported an average mail distribution of 405,749 during the audit period. Mail distribution is verified through the review of mail statements and additional publisher support documents. Engle Publishing & Printing Company, Inc. did not report carrier delivery distribution during the audit period. Carrier delivery is verified through the review of carrier statements and additional publisher support documents. The Circulation Verification Council performed a delivery & readership verification in the primary market areas indicated in paragraph nine. Delivery verification is performed using multi-source methodologies considered necessary under the circumstances of the audit. Delivery verification can include, but is not limited to, residential and cell phone interviews, online surveys, email surveys, and/or social media surveys. Delivery verification source data can include, but is not limited to, residential phone listings, cell phone exchanges, publisher delivery lists, opt-in email databases, online, and/or social media databases. The purpose of the verification is to report individuals who receive the publication, and further identify individuals who read or look through the publication.

1. The (appropriate Engle Publishing & Printing Company, Inc.) publication is distributed regularly in your area. Do you receive the (appropriate Engle Publishing & Printing Company, Inc. publication) on a regular basis?
2. (If response to #1 was YES) Do you or someone in your household regularly read or look through the (appropriate Engle Publishing & Printing Company, Inc. publication)?

CVC review indicates that a sufficient number of individuals reported that they receive the (appropriate Engle Publishing & Printing Company, Inc. publication) on a regular basis to substantiate the publisher’s distribution claims. CVC verification confirms that 1,013 of 1,042 individuals or 97.2% report they receive the (appropriate Engle Publishing & Printing Company, Inc. publication) on a regular basis.

CVC verification confirms that 779 of 1,013 or 76.9% report they regularly read or look through the (appropriate Engle Publishing & Printing Company, Inc. publication).

*Households reporting stop delivery requests were excluded from the survey.

The Circulation Verification Council estimates that all the information in this text box has a minimum accuracy level of +/-3.5%.

Engle Publishing & Printing Company Inc - Mount Joy, PA - 13-0906 - Supplemental Readership Study

The Circulation Verification Council surveyed Engle Publishing & Printing Company Inc - (consolidated) readers in the primary market areas indicated in publication's CVC audit report. The purpose was to identify the number of individuals who indicate they have read at least two of the last four issues of the publication, and gather study information solely for advertising purchase evaluations. Market statistics estimates appearing in CVC reports, when available, are obtained from EASI Software. CVC study sources can include, but are not limited to, residential and cell phone surveys, online surveys, email surveys, and/or social media surveys. Study source data can include, but is not limited to, residential phone listings, cell phone exchanges, publisher delivery lists, opt-in email, online, and/or social media databases. Residential and cell phone survey populations consisted of adults age 18 and over, living in households within the survey area. Within this area, each individual had a known (or "non-zero") probability of being selected for the random sample. Surveys were conducted solely with pre-designated respondents and no substitutions were permitted. Initial survey attempts were spread evenly across all survey days (i.e., Tuesday through Saturday). A minimum of 250 completed surveys, or 2.5% of net circulation for publications under 10,000 net circulation is required with no more than one survey per household. Survey Procedures: To ensure the highest degree of comparability and to facilitate the survey process, a standard, consistent, specified list of questions was asked. Surveys were conducted over a minimum period of three weeks to minimize the impact of weather and/or special news stories. Every effort was made to ensure that surveys were assigned randomly by day and that an approximately equal number of surveys were completed on each survey day. Where appropriate, data was balanced and/or weighted by ZIP code using up-to-date known demographics: gender, age, number of adults in household and ethnicity in those cases where one minority comprised no less than ten percent of the total population. Non-responses to any single question were eliminated from the survey. In all cases, at least six attempts were made to contact all pre-designated respondents. Every effort was made to surmount language, cultural, behavioral and other barriers to a successful survey; and to the extent feasible, contact attempts were scheduled on a random basis. During the survey process, no questions were asked prior to the readership question, with the exception of a qualifying question designed to determine the ZIP code of the individual; and a general warm-up call explanation designed to put the respondent at ease. Warm-up questions did not include any reference to a publication itself or the nature of the study information. The study followed recommended guidelines developed in part from established media usage and evaluation guidelines. Survey totals may not equal 100% due to rounding. The Circulation Verification Council estimates that all the information in this survey has a maximum error margin of +/-3.5% at the 95% confidence level. 779 Survey respondents were interviewed during the verification of carrier delivery and mail distribution. 0 Survey respondents reported reading a minimum of two of the last four issues through single copy, controlled bulk, or pass along distribution. 17 Survey respondents responded to a geo-coded outbound email verification. This publication did not participate in the CVC online research program.

- **Average estimated readers per edition during the audit period: 1.725**
